FIG. 10

Top-down view of the system 24. The system includes a central target area 92 with concentric circles, a grid of dashed lines 90, and a rectangular area 100 containing two points 96 and 98. A vertical line 86 passes through the center of the target area, and a horizontal line 88 passes through the center of the grid. A point 86 is located at the intersection of lines 86 and 88.
